

Supervision & Training

1

Clinical Supervisors

Each SPG Remote therapist is supported by an expert Clinical Supervisor who provides ongoing training and guidance in assessment, case management, intervention, communication, and so much more.

2

Therapist Training

SPG's Remote therapists are experienced within their practice and in tele-therapy. We provide additional training to all Remote therapists to ensure a clear understanding of CA Ed Code, eligibility guidelines, report writing and best practices.

3

Professional Excellence

SPG has a decades long reputation of excellence. We hire, train and support expert therapists and our dedicated Remote team provides close ongoing support. Each Remote therapist has access to up-to-date resources and on-call IT to troubleshoot any technical issues in the moment.
